Education

University of Stirling

Oct. 2022 – Sept. 2024

MSc. Financial Technology

Stirling, Scotland, UK

Relevant Coursework

Machine Learning; CyberSecurity; Bank Theory, Operations and Strategy; Representing and Manipulating Data; Blockchain Technologies; Mobile Financial Applications; Professionalism, Regulation and Ethics

University of Stirling September 2023 Cohort

Student Representative for the MSc Financial Technology (Sept 2023) class

Experience

Lagos State University, Ojo, Lagos

Deputy Director, Analyst

I designed and was the Team Lead for the development of the freshmen students' enrolment application - known as LACACA

I was the Team Lead for the development of the students' registration portal presently in use at the Lagos State University, Ojo.

I was the Team Lead for the development of the students' registration portal presently in use at the Lagos State University, Ojo.

I was the Team Lead for the maintenance and management of the student registration portal cited above.

My unit oversaw the maintenance and management of the university e-payment infrastructure through which all the University's school fees are collected.

My unit was responsible for providing technical and administrative support for and during the Student Union Government online elections.

As Ag. Head, ICT Centre between (31) March, 2013 and (28) August, 2014 I coordinated the ICT Centre for the University and had control over both the technical and administrative activities of the Centre

MFI & Associates, Lagos (Business directory, *The Pages*, publishing firm)

Head of Operations

I coordinated the design and development of an electronic tracking system for company assets – directories and CDs

I managed the design, configuration and implementation of a Local Area Network, in order to reduce pre-press costs and challenges.

I was in charge of the administration of a comprehensive - thirty five thousand entries - seven state data gathering exercise - along with regular updates as Head, Operations at MFI and Associates.

I suggested introducing technical specifications to the layout of our directory that gave us about 30% savings in paper cost.
